Gentlemen- I have the honor to acknowledge the receipt, through the Secretary of the Council, of a copy of a resolution adopted at the meeting held on last Tureday, the 19th instant, with reference to the printing and binding of one thousand copies of the Maulcipal Code, and I answer the several inquiries directed to me by said resolution as follows:

1. The first inquiry made is whether the contract entered into between the City and the Woodward & Tilerman Printing Company is valid and binding upon the printing company, and whether, in the event that the work is not completed and delivered on July 15, 1909, there will be a legal liability on the contract and bond executed by the company?

ing company, and whether, in the contract the work is not completed and delivered on July 15, 1809, there will be a legal liability on the contract and bond executed by the company?

My contention in the pending litigation was, and still iz, that since the Cily of St. Louis is authorized by its Charter to contract for public printing and binding, and since the Register is empowered by the Charter to enter into such contracts in behalf of the City, that therefore, the contract in question is within the power of the City to make, and was not ultra vires; that the reference in the advertisement which led to said contract, and the reference in the advertisement which led to said contract, and the reference in the contract itself, to Ordinance No. 1941, approved July 6, 1988, and popularly known as the Union Label Ordinance (now sections 1928 and 1829 of the Municipal Code), constitutes at most an irregularity, but does not render the contract void.

1 am bound to state, however, in this connection, that the Circuit Judge, in passing upon the application for a temporary injunction to restrain and enjoin the City and its fiscal officers from paring out any money under the contract entered into with the Woodward & Tierman Printing Company, declined to entertain these views, and held that since the ordinance referred to was made a part of the contract it rendered the contract void in toto.

2. The next inquiry is whether it would be legal and practical to rendvertise for proposals for printing and binding said Code, omitting all reference to the ordinances relating to public printing require that work of this character be let by the Register to the lowest bidder. All contracts for advertising in the newspapers doing the public printing is required to be so let; but no such condition applies with reference to job printing or binding. As to whether it would be practicable to readvertise, I may say that the Register made such an attempt, making to reference in the advertisement to the union label ordinance was a good and

termination of the pending injunction suit.

4. It is impossible to say definitely when there will likely be a final hearing in the Circuit Court of the injunction proceeding, but the probabilities are that the case will be reached at some time during the coming winter. So far as I am concerned, I made an effort to have the Circuit Court advance the case on its docket, and hear it immediately upon its merits, so as to dispose of it before the summer vacation, and to enable the parties, if they deem it necessary or proper, to take an immediate appeal to the October term of the Supreme Court. In this request I was joined by counsel for the printing company, but the Circuit Judge before whom the case is pending declined to take it up, stating that he had already assumed to dispose of as much work before him as was expedient before vacation.

work before him as was expedient before vacation.

5. With respect to the last inquiry, whether the City would be liable for the reasonable value of the one thousand copies of the Code if the Woodward & Tiernan Printing Company should chose to complete and deliver same to the City, and the City should chose to accept them. I beg to say that there is considerable conflict among the courts as to whether or not a municipal corporation can be held liable in assumpsit; that is upon an implied promise or agreement. But whatever doubt there may be elsewhere. I am of the opinion that the City of St. Louis could not be held on any such theory, because the Statutes of this State provide that no contract of a municipal corporation shall the enforceable unless the same shall be within the scope

of its powers, or be expressly authorized by law, be reduced to writing, dated when made, and properly subscribed. This statutory provision was sought to be compiled with in the present case, but the Circuit Junge has held this written centract to be void. The fifth inquiry of your resolution, and which I am here undertaking to respond to, assumes that the City might be held liable, not upon its written agreement, but in quantum meruit; that is, unon an implied agreement, for the reasonable value of the books. I do not believe that it would be so held liable. Numerous decisions in this State so indicate, of which Crutchfield v. City of Warrensburg. 29 M. A. 46, and Schell City v. Energy Mig. Co., 29 M. A. 24, may be taken as types.

I have the honor to be.

Respectfully yours, B. SCHNURMACHER,
